PRINTING SERVICE

WE MAKE YOUR

BECOME A REALITY

OUR SCREEN PRINTING SERVICE PROCESS

STEP 1

You give us a design. We have optimised this process to make it as simple as possible for all of our customers. You can either submit your own designs to us or ask us for our team to work on your idea.

STEP 2

Our in-house designers analyze your order. They separate every colour into an individual screen, clean up your artwork, and prepare your design for printing. We will send you a digital copy of this updated work and ask that you approve it before printing begins.

STEP 3

Each screen gets “inked up” with the approved colour, and each cap is then printed in proper colour order. Our flash-drying process between each individual screen ensures crisp quality and prevents colour bleeding.

STEP 4

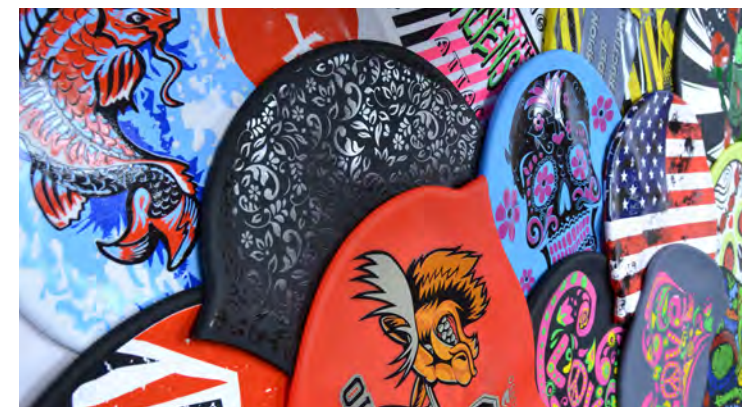

The finished product is dried on our conveyer dryers. This process makes for a thorough and even curing of the ink to the material, which ensures your design will not crack, fade, peel or wash off.

STEP 5

We ship your order right to your door. Each customer is given a tracking number, delivery date and email confirmation upon order completion.

Since more than 30 years we have been perfecting our process and we take great pride in the simplicity and efficiency of our operation.

There is a reason why we are an industry leader, and while much of it has to do with our high standards of work, our lightning-fast turnaround, and safe and secure shipping. All comes down to reliability.

FRONTAL SNORKELS

FRONTAL SNORKEL

- » Frontal snorkel ensures smooth arm rotation, maintain body alignment and improve stroke efficiency.
- » The swimming snorkel allows smooth airflow and provides healthy amounts of oxygen whilst lap swimming, triathlon to maximize speed.
- » Thickened head-pad sits firmly on head front, delivering comfort and eliminating movement when flip turns all four strokes.
- » Durable food-grade and odorless mouth piece, fits perfectly in the mouth and keep the snorkel in place. One-way purge helps to drain the water entirely during exhalation.
- » Sleek hydrodynamic design allows swimmers to swim effortlessly with minimal water resistance.

INFLATABLE SWIM BUOY

 CUSTOMISABLE

REF A10020

 30 ORANGE

 20 FLUOR YELLOW

- » Buoyancy: Max. 8kg
- » Equipped with a large valve to inflate quickly using the mouth to blow. The Swim Buoy is lightweight, there is no sense of restraint when swimming, does not affect the swimming action and speed.

Instructions:

1. Fill with air and check the air bag is not leaking.
Make sure it doesn't leak before use.
2. Connect the airbag with the waistband on a short strap.
Adjust the length of the belt and tie it at the waist.
3. Rinse the air bag after use, drain the air and dry it for next use.

Warning:

1. The product can not be used for cross and drift activities.
2. This product is not lifesaving goods, please do not use in non swimming places.
