JUST SWIM.

Aqualine Engineering Ltd is a wholly owned Irish company based in Dublin offering over 30 years of experience in the Leisure Industry. We are Ireland's leading supplier of leisure products servicing all 32 counties.

Our dedicated sales team have been hand-picked from the leisure industry and are aware of what it is like to be the customer, with this in mind we are able to offer a fast, efficient and friendly service.

2024 Swim Ireland Award for Outstanding Contribution to Aquatics

We have been proud to support and contribute to the continued growth of the aquatics industry in Ireland and across Europe. Throughout this time, we have built strong, long-standing relationships with customers, governing bodies, and leading international manufacturers, allowing us to deliver trusted expertise and high-quality aquatic solutions. Our commitment to excellence has been recognised through prestigious industry awards, reflecting the standards we bring to every project. We are proud to work in partnership with respected organisations and brands such as Swim Ireland, Sport Ireland Para Swimming, Team Ireland, Ireland Active, Malmsten AB, Certikin UK, Forge Leisure, and Melspring International B.V.

As the aquatics industry continues to evolve, we look forward to the next chapter—continuing to support facilities, athletes, and organisations with proven experience, reliable service, and a genuine passion for aquatics.

melclorite

Premium Quality Calcium Hypochlorite

- No. 1 Choice for swimming pools
- High available active Chlorine Content - 70 - 75%
- Minimum insoluble material causing less clogging and reducing maintenance costs
- Stable moisture content - typ 9.3%

melclorite

- Melclorite is the most cost effective, reliable & safe Calcium hypochlorite for public swimming pools
- The quality of calcium hypochlorite is mainly determined by the purity of the calcium oxide used. For Melclorite, only high-quality calcium oxide is used, which makes the end-product bright white and well soluble.
- Melclorite meets EU & US standards (BS-EN 900, EPA & ISO9001)
- The bright white colour & moderate smell reflects its purity & absence of contaminations.
- Packed in 25 Kg Drums with CRC safety closure, child safe lids & ADR approved
- Melclorite 70/G - Granular Chlorine
- Melclorite 70/200 NX - 200 gram Chlorine Tablets (widely used in Accutab systems) includes descaler
- Melclorite 70/20 NX - 20 gram Chlorine tablets includes descaler

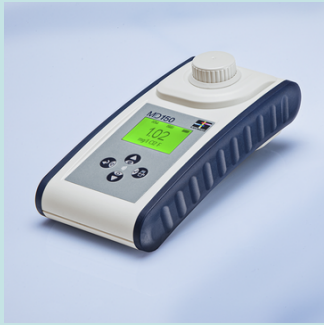

Full range of ancillary pool chemicals available as standard with Chlorine

Lovibond

The MD150, building on the legacy of the proven MD100 photometer, offers even more high-quality features and ease of use. Whether you're monitoring pool water or managing other water treatment needs, the MD150 provides versatile multiparameter combinations. With enhanced high-precision optics, the MD150 delivers unmatched accuracy and efficiency, making it the ideal solution for various water testing needs.

Palintest

In Stock!
Next day delivery on all test tablets!!

Palintest Lumiso Pooltest Photometer

Key Benefits

- Intuitive Interface:** High contrast display and minimal buttons enables intuitive, fast testing
- Rugged Durable Design:** Waterproof and dustproof to IP67
- Cloud Connectivity:** Upload via USB or QR to store results, set limits, and trigger compliance alerts
- Lightweight Kit:** Integrated kit storage keeps accessories organised and easy to transport
- Reagent Starter Pack:** Starter pack includes reagents for each test for immediate use
- Precision Optics:** Advanced LED and detector ensures reliable, repeatable results

Simple and effective pool testing for service engineers and pool managers. Perform rapid and reliable testing of the following parameters:

- Bromine 0 – 10 mg/L
- Calcium Hardness 0 – 500 mg/L
- Chlorine 0 – 5 mg/L
- Chlorine 0 – 10 mg/L
- Cyanuric Acid 0 – 150 mg/L
- pH Phenol Red 6.5 – 8.4
- Total Alkalinity 0 – 500 mg/L

As the appointed Official Irish agent for Forge Leisure, we supply high-quality pool cover systems designed specifically for commercial swimming pools, hotel pools & private facilities.

Pool covers remain an essential item of pool equipment, not only for their excellent heat retention qualities (saving up to 85% of total heat loss) but also for reducing chemical evaporation and condensation.

The covers are made from closed cell polyethylene foam with a strong, woven polyethylene topside and a clear laminate on the underside. Aqualine together with Forge Leisure can design, manufacture and install a heat retention pool cover to suit your swimming pool needs.

We offer end to end services, meaning once your cover is installed, we can help maintain the cover. Whether you need repairs or routine maintenance our team can assist you.

Having a pool cover in place significantly reduces heat loss and water evaporation, helping to lower energy consumption and minimise chemical usage. By improving heat retention and maintaining consistent water temperatures, they support more efficient day-to-day operations and measurable cost savings.

Engineered for durability and ease of use, Forge Leisure pool covers provide a reliable solution for both new and existing installations. Built to withstand demanding commercial environments, they contribute to safer pool management while helping facilities improve sustainability and control long-term operating costs.

Automatic Pool Cleaners

Dolphin commercial robots are electronic pool cleaners that promise – and deliver – long-term, cost-effective operation. Gain heavy-duty pool and pool water cleaning performance with exceptional reliability. With proven solutions for any commercial pool, from small public pools to the largest, professional and Olympic-sized pools, Dolphin is the ideal pool cleaner choice.

With the fully automated operation, your staff can focus on other tasks, with full confidence that your pool water will be left clean and hygienic after every cleaning cycle.

Dolphin robotic pool cleaners are the choice of thousands of commercial pool operators in hotels, country clubs, spas, schools and public and private swim centres worldwide.

 Clever clean scanning	 Thorough brushing	 Swivel on cable Prevents cable tangling	 Dual drive motors

Manual Cleaning equipment

Aqualine stock a full range of manual cleaning equipment for both commercial and private swimming pools.

Products include:

Pool Brush, Telescopic Pole, Vacuum Hose, Vacuum Head, Nets and much more.

The iSwim pool lift is a cutting-edge solution that provides easy access to swimming pools for individuals with mobility challenges.

Designed specifically for use at swimming pools, therapy pools, and leisure centres, the iSwim pool lift is available in three options – iSwim 1 & 2 mobile pool lift, and iSwim 3 fixed pool lift, providing flexibility and versatility to meet different accessibility needs.

i-Swim Pool Lift

The i-Swim is a compact, fully mobile pool lift that delivers safe, independent access to swimming pools without the need for permanent installation. Built from aluminium and stainless steel, it offers exceptional durability with smooth, controlled lifting. Its parallelogram lifting system and patented anti-tip stabilisation ensure maximum safety, while four braked wheels allow easy positioning around the pool. Powered by a 24V rechargeable battery with intuitive hand controls and emergency stop, the i-Swim is a reliable solution for leisure centres, hotels, and rehabilitation facilities.

Key Features

- Fully mobile – no fixing required
- Smooth, stable lifting motion
- High safety with patented anti-tip system
- Easy battery operation with emergency stop

i-Swim 2 Pool Lift

Standard · Maxi · SPA

The i-Swim 2 is a versatile pool lift designed to suit virtually any pool environment, from in-ground pools to spas and wellness centres. Available in Standard, Maxi, and SPA versions, it offers flexible reach and configuration to meet different access requirements.

Constructed from aluminium and stainless steel, the i-Swim 2 features a smooth parallelogram lifting system, four braked wheels, and 24V battery power with pendant control and emergency stop. Optional seating or stretcher accessories allow one lift to adapt to multiple users and applications.

Key Features

- Multiple models for all pool types
- Smooth, controlled lifting action
- Mobile design with braked wheels
- Pendant control with emergency stop
- Optional seat or stretcher for added flexibility

i-Swim 3 Pool Hoist

The i-Swim 3 Pool Hoist is a reliable, battery-powered access lift designed to help leisure centres provide safe, comfortable and dignified pool access for users with reduced mobility. Its smooth lifting and rotation system allows easy transfer from poolside into the water at the touch of a button, supporting inclusive access for members and visitors of all abilities.

Compact, modern and built for demanding pool environments, the i-Swim 3 is simple to operate and maintain, making it ideal for busy commercial facilities. Installing a pool hoist enhances accessibility, supports compliance requirements and demonstrates a clear commitment to inclusivity and community engagement.

Key Features

- Battery-powered operation with simple handset control
- Smooth lifting and rotation for safe pool entry
- Secure and comfortable seating design
- Durable construction suitable for commercial pool environments
- Compact footprint to suit new or existing installations
- Designed to support accessibility and inclusive access requirements

The first metal-free wheelchair, designed and manufactured specifically for use in swimming pools, showers, sauna & steam room!

Weight & Dimensions:
17kgs 67 × 82.5 × 105cm (w x l x h)

Warranty:
Body and footrest, 5 years
Other parts, 1 year

- No Metal, No Rust, No Staining
- No metal allows access to saunas & steam rooms
- Can be wheeled directly into swimming pool beached area
- Can be wheeled directly into shower
- Strong and adjustable brake system
- Easy to maneuver for the user or an assistant
- Easy Access in and out, no need to dismantle the armrests
- Low maintenance

Beach Wheelchair

The Beach Wheelchair is designed to make beach days accessible for all. Perfect for sand and shallow water, it gives you the freedom to enjoy the beach with comfort, safety and independence

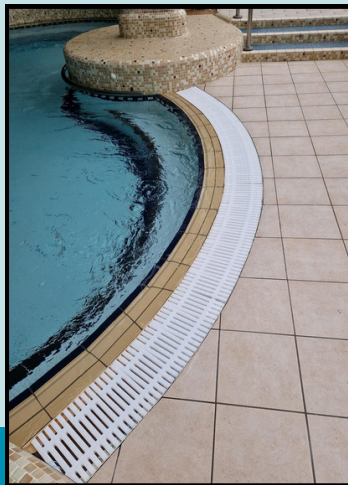

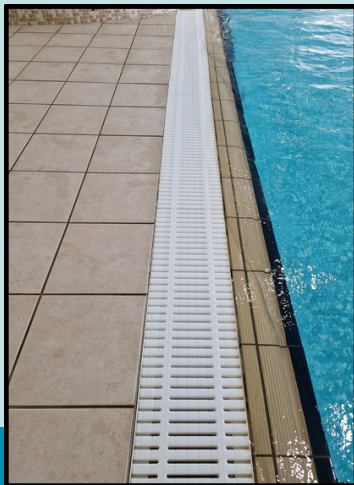

- **Easy Movement on sand & in shallow water**
- **Lightweight & Durable design**
- **Tool-free assembly in minutes**
- **Built for beach & water adventures**

Poolside Grating

High Density Polyethylene (HDPE) grating can be made to suit any existing or new grating channel, inlet and sump covers.

Any depth, any width and virtually any colour.

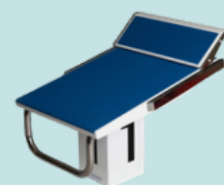

**High impact strength.
High chemical resistance.
UV stable and virtually unbreakable.**

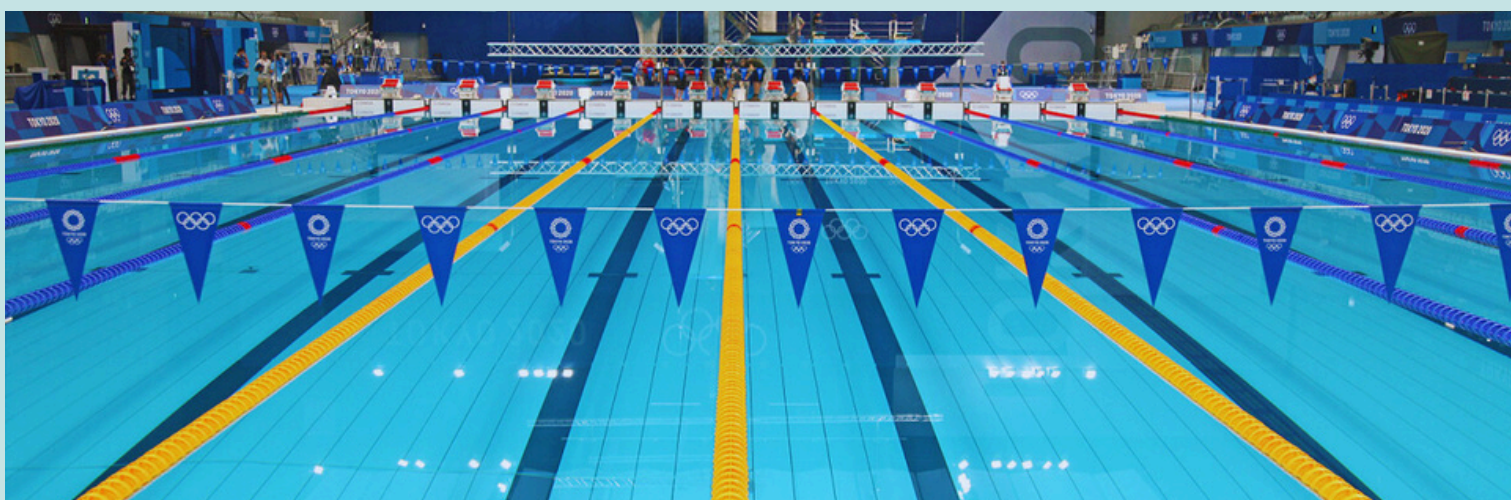

The details we need:

- Length + quantity in total
- Width
- Depth
- Profile
- Colour
- Any corners or unusual shapes

Aqualine are proud to be the official Irish distributor for Malmsten, the worlds leading manufacturer of Swimming pool competition & water polo equipment. We have been partners for nearly 30 years and pride ourselves on supplying the top of the range equipment into the Irish Aquatic sector including Swim Ireland, Water Polo Ireland, Sport Ireland and swimming pools nationwide

Bespoke Racing Lane Lines to fit your pool length and colour scheme.
The Lane line slider will protect and prolong the lifespan of your racing lanes.

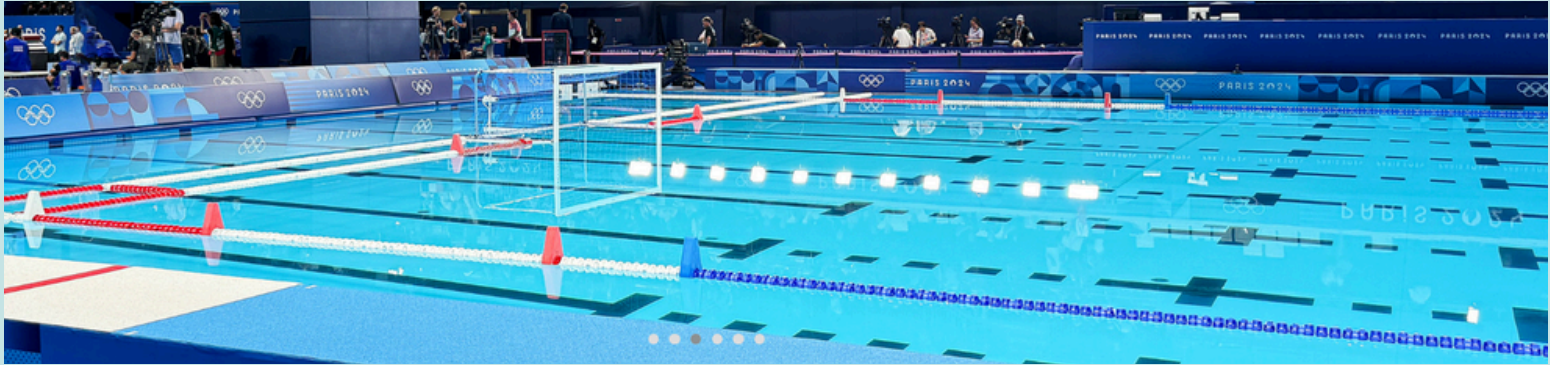

Starting Blocks

Features:

- Stable with effective anti-slip surface
- Stainless steel 316L – protective anti-corrosion paint
- Can be combined with Track Start
- Can be combined with an Open Face Platform

Malmsten Water Polo

Malmsten Water Polo Equipment

Malmsten water polo equipment is designed for durability and performance in both training and competitive environments. Manufactured to a high standard, Malmsten products are widely used across clubs, leagues and international competitions.

Our range includes goals, balls and essential accessories, suitable for leisure centres, schools and water polo clubs. Built to withstand regular use, this equipment supports safe, reliable play while helping facilities deliver a professional water polo setup.

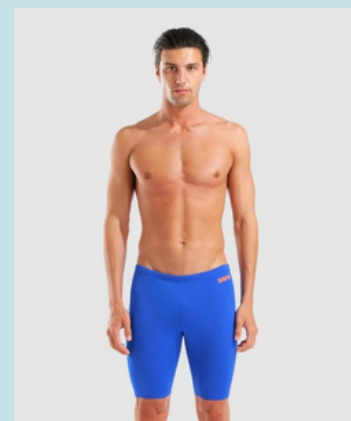

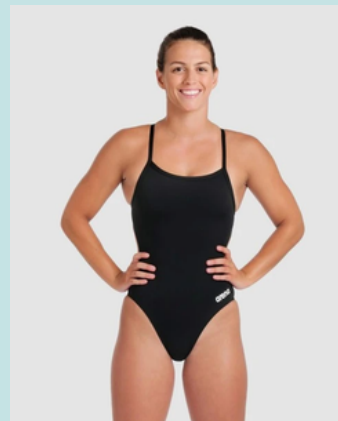

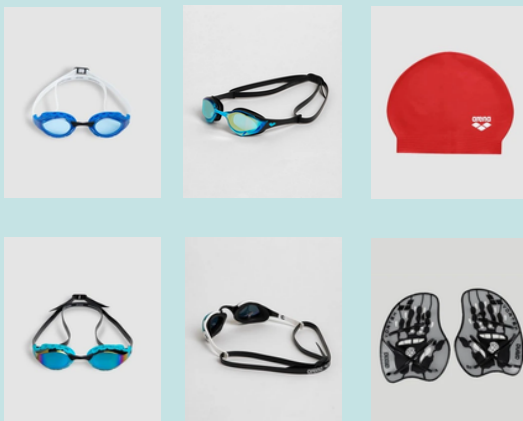

Swimwear

We supply a wide range of high-quality swimwear from leading brands including Arena, Aquasphere Speedo, and more. Ideal for retail within leisure centres and aquatic facilities. Covering everything from casual swimmers to lessons, clubs and competitive users, our range ensures you can meet customer demand across all age groups and abilities.

We also cater for entry level swimwear & accessories to suit your budget.

We supply branded swim hats for swimming events, swim clubs & hotels.

Uniforms

A practical and professional range of uniforms suitable for a wide variety of working environments. Designed with comfort and durability in mind, our uniforms are ideal for daily use and are available in multiple styles, colours and fits. Custom branding options are available to suit your organisation requirements offering both embroidery and print.

Finden & Hales

With a wide variety of colour options available, the Finden & Hales range provides excellent flexibility for creating customised uniform sets across all areas of your facility. From front-of-house to coaching and support staff, coordinated apparel helps maintain a professional and consistent appearance.

Contact us today to receive your personalised quote & mock-up.

Contact us for your personalized quotation.

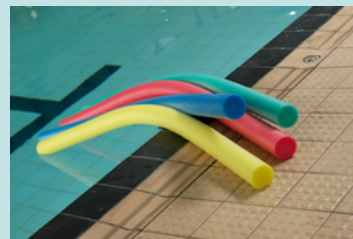

Whether its for Summer camps, brand awareness, club promotion, an event or retail we have everything covered all with your logo.

We supply a complete range of professional lifeguard equipment for swimming pools and open water environments. Our products are selected for durability, visibility and reliability, ensuring lifeguards have the right equipment to respond quickly and effectively when it matters most.

From everyday essentials to specialist rescue equipment, we provide practical solutions for leisure centres, aquatic facilities, lakes and coastal locations. Whether you are setting up a new site or updating existing equipment, we can supply what you need to maintain a safe and fully equipped facility.

Contact us today for a quotation or to discuss your specific requirements.

Teaching platforms for swim schools

Pool platforms create a solid swim teaching standing platform in the water. The platform is designed to assist in the delivery of swimming lessons in deeper water or shallow water where students are unable to touch the bottom of the pool and it has been created especially with swim schools, pool operators & schools in mind. They provide swim schools with a safe learning environment for their students.

Standard Platform 124 cm x 65 cm x 50 cm high

Large Platform – 18 cm x 65 cm x 50 cm high

Available with Rail

Double with Rail

Plastic Pool Side Lockers

Plastic Lockers are ideally suited for pool side or wet environment.

The plastic lockers come in a range of sizes and colours to suit customers needs, along with different types of locking mechanisms such as key, coin return or hasp lock.

We have a range of locker room accessories such as coin locks, wrist bands for keys, and rubber bands

The Babyminder baby changing unit is a high-quality, wall-mounted solution for providing safe, hygienic baby changing facilities in commercial environments such as gyms, leisure centres, hotels and public washrooms. Offering a wipe-clean, robust surface designed for frequent use. Smooth, controlled opening and closing, and built-in liner dispensers and safety straps provide added convenience and child security. Available in both horizontal and vertical formats, the compact design folds neatly against the wall when not in use, helping keep washrooms tidy and accessible.

The SuitSpin Swimwear Dryer

Built to last, the unit features a high-quality stainless steel casing with a durable top cover, designed for long-term use in busy environments. It is simple to operate — just place the wet swimsuit inside, close the lid, and within seconds it is ready to remove. The system operates without heat, using centrifugal force to extract water safely and efficiently, with no exposed moving parts. Designed for easy maintenance, both the inner and outer drum are accessible for straightforward cleaning. Environmentally friendly in operation, it reduces the need for plastic bags and returns extracted water back into the drainage system. Capable of removing up to 95% of water from swimwear in seconds, it helps keep changing areas drier and more comfortable.

The Vendiplas Furniture and storage range offers durable, hygienic poolside benches, trolleys, and storage units made from water-proof, rust-resistant PVC. Designed for high-moisture environments like pools and sports centres, the easy-to-clean, UV-resistant products provide long lasting, practical solutions. Customisable and available in static or mobile options, the range includes benches, cabinets and specialised trolleys for equipment and poolside use.
